

ADJUSTABLE MICROWAVE SENSOR

SAM

A unique presence/absence detection capability by using an adjustable head.

This incorporates an innovative locking mechanism to prevent tampering. By changing the angle of the head, different detection patterns can be achieved to suit the application. An integral sensitivity adjustment allows the detector to be fine-tuned To its environment.

The microwave presence detector is self-contained and can be flush or surface mounted using a separate detector back box.

The microwave sensor is sensitive to movement
